

VETS Coin – Official Staking Guide

Welcome

Welcome to the official staking program for VETS Coin — where your tokens earn rewards while helping support real-world veteran causes.

For Beginners

What is staking?

Staking is like earning interest on your crypto. You lock your VETS tokens for a period of time to receive rewards. 10% of your rewards go to veteran-focused charities.

Is it safe?

Yes. Your tokens never leave your wallet and are only locked temporarily via secure Solana smart contracts.

■ How to Get Started

1. Install a wallet like Phantom or Solflare.
2. Fund it with at least 0.05 SOL (~\$5 USD) to enable transactions and faucet eligibility.
3. Get VETS tokens (launching soon – check the dashboard or announcements).
4. Return to this page to choose your staking option.

Note: Early withdrawal forfeits 50% of earned rewards. This protects the veteran charity pool.

Staking Options & Rewards

- Lock periods: 30, 60, 90, or 180 days
- Annualized Return: 2% to 10%
- Bonuses:
 - +1% for verified veterans
 - +2% for VETS NFT holders

- Early withdrawal = 50% of earned rewards forfeited

Intermediate Reward Estimates

Rewards for staking 1,000,000 VETS:

- 30 days @ 2% APR \approx 5,479 VETS
- 60 days @ 4% APR \approx 10,959 VETS
- 90 days @ 6% APR \approx 16,438 VETS
- 180 days @ 10% APR \approx 27,397 VETS

Charity Transparency

10% of rewards go to a publicly viewable on-chain wallet.

Each quarter, Vetted Patriots Inc. will publish a breakdown of donations and impact reports.

Users may vote on fund allocation in future phases.

For Developers

Solana Mainnet Program:

- Program ID: 8MUVVwM2uTFQMDskEhawmLyR9Q9jZd8DSEpJ1P4PEXfr
- Anchor Version: 0.30.1
- Authority: None (non-upgradeable)

Instructions:

- Initialize: Create the global staking config
- Stake: Lock tokens with options
- Claim Rewards: Get daily rewards
- Withdraw: Unlock after term
- Early Withdraw: With penalty
- Donate Charity: Send funds to charity wallet

Command line usage:

```
$ solana config set --url https://api.mainnet-beta.solana.com
```

```
$ anchor build
```

```
$ anchor run stake --args amount=1000000 duration_days=30 is_veteran=true nft_mint=null
```
